# Welcome

At HyLyte Safety Signs & Products, it's our job to make yours easier.

We are your one stop shop for all your Body Corporate compliance needs.

We supply all kinds of safety products to help address any issues you may have in your complex.

We also have trained Work Place Health and Safety Officers that can come to your and help assess your safety requirements.

## We proudly stock, supply or manufacture the following items

- 
- Work Place Health & Safety Signs
  - First Aid Equipment
  - Speed Humps and Wheel Stops
  - Bollards
  - Expandable Fencing
  - Traffic and Safety Mirrors
  - Custom Signs
  - Parking Protection
  - Magnetic Signs
  - HAZMAT Spill Kits
  - Car Park Stencils
  - Body Corporate Signs
  - and much much more!!!

# BODY CORP SIGNAGE

We make all Body Corporate signs, from Pool Rules to Parking Signs, we can customize any sign to suit your specific Body Corporate requirements. We can add your complex logo to personalise your signage to match your complex branding.

All of our custom signs can be manufactured to your specific requirements. Our signs come in a variety of materials to suit all uses. We manufacture signs in Sign White, Colourbond Steel, Aluminum, Poly Foam Board, Corflute 3mm, 5mm, 8mm and well as Self-Adhesive Vinyl.

If you don't see what you are after, just give us a call and we will endeavor to help where we can.

## POOL / SPA / SAUNA SIGNS

NOTE: We can produce your swimming pool signage to suit your specific requirements.

# BOLLARDS

Are available in Econo 90mm or Heavy Duty 140mm diameter.  
The Bollards are available in a number of different installation modes:

- 1 Inground Fixed, Round or Square profile
- 2 Bolt down Fixed, Round or Square profile
- 3 Inground Removable Round 90 or 140mm dia.  
Secured with internal Key-Lock or Padlock
- 4 Bolt Down Removable Round 90mm dia. Secured  
with internal Key-Lock
- 5 Bolt Down Collapsible Rectangular for Car spaces. Secured by key or  
padlock.

Inground models are the most secure, used to protect property against forced entry and heavy impact. While the bolt down bollard will protect against a medium impact they are best used to protect structures that do not have a security aspect requirement.

The advantage for the Bolt Down Base models is the lower priced installation. HyLyte trained personnel are competent to install all inground bollards into existing concrete, paved areas, grasses or garden areas, or bolt down based models on to concrete pavement.

HyLyte offer a free inspection and quotation service on the Gold Coast, outside this area we are happy to discuss your requirements and offer installation assistance if required.

## STAIR NOSING & ANTI SLIP TAPES

Non slip stair nosing is an architecturally designed safety product. Essential for owners of buildings in areas where tenants/ guests/owners and employees access occurs by steps.

It is also vital where dedicated stair cases are used for fire escape in case of emergency. Australian standards for access and mobility now require all new buildings to include slip resistant stair treads.

# TRAFFIC SIGNS

We manufacture reflective signs to Main Roads Standards on Aluminum or non reflective off road signs for Body Corporate requirements.

We supply a range of posts, in-ground bases and brackets to support the signs or wall mounting signs.

We have a huge range of reflective materials:

- Class 1 - 3M Reflective Yellow
- Class 1 - 3M Reflective Orange
- Class 1 - 3M Reflective Silver/White
- Class 2 - Yellow
- Class 2 - White/Silver
- Class 2 - Blue (For Security Operators)

We have the right material for all your Traffic Signage requirements.

Reflective sheeting used on signs that are luminated by car lights, gives more visibility to your signs at night.

## SPEED HUMPS & WHEEL STOPS

Speed humps are the most cost effective solution to controlling and managing risk and providing a safe environment for both public and staff. The profile of our speed hump is the only shape that complies with the Australian standard.

- Neighborhood Street Calming
- Very Visual Reflectors
- Non Slip Pattern
- Any Length
- For Bitumen or Concrete

MANUFACTURED FROM ENVIRONMENTALLY FRIENDLY LINEAR LOW DENSITY POLYETHYLENE (LLDPE)

Body Corp - Pedestrian Crossings  
Private Car Parks - Caravan Parks  
Lane Ways - Stop Signs  
Secured Estates

# OTHER PRODUCTS

## Line Markers / Stencil Painting

Car park markings including lines and symbols. Road marking symbols, pedestrian crossing, numbering and much more. Paint on road instructions "No Parking" "Turning Bay" "Car Wash" "Visitors Parking" & "Reserved" we hire stencils or can paint for you.

## Sign Frames

We make your unique sign and display it in our sign frames. Fold up 'A' Frames or our poly pipe 'U' Frame or 'H' base frame.

## Spill Kit

Keep emergency clean up equipment close at hand for fast response to oil & fuel or chemical spills.

## Cord Covers

Designed to reduce Trip Hazards by hiding several cords and protecting them from damage.

## Corner Protectors

High visibility tuff and sturdy devices made specifically for protecting any corner at risk of being damaged.

# MAINTENANCE

Doing maintenance around your complex can present certain dangers to the general public. With our huge range of Highly Visible Caution markers and Barriers you can pre-warn people of possible dangers.

These also help you meet your duty of care and can prevent any repercussions from any mishaps that may occur with-in your complex.

We can customise any warning sign you need to meet your specific purpose.

Our Barriers can exclude entry to controlled areas, also helping to prevent accidents.

# HEIGHT INDICATOR BARS

Height Indicator Bars are invaluable assets to have in your Body Corporate Complex.

Not only can they help prevent damage to tenants cars, they can also help prevent damage to plumbing pipes and electrical cables and lighting in your undercover car parking. Avert dangerous situations of breakage, expensive repairs and constant call outs of tradesman by installing a Height Indicator Bar today!

**MAXIMUM CLEARANCE 2.0M**

## MIRRORS

Installed for added safety, a step towards fulfilling your Duty of Care obligation.

Covering the black spots in your complex giving more visibility and warning to drivers and pedestrians to avert accidents on blind corners or warning when backing out of driveways within the complex.

Also very useful in Hi-Rise Body Corporate Garages to open up visibility when exiting or entering ramps or within the garages.

We supply Acrylic Faced or Stainless Steel Faced mirrors, In-Door Mirrors and Out-Door Traffic Mirrors with visors in a range of sizes from 300mm dia to 1200mmdia.

# INSTALLATION

At HyLyte we offer a full installation service for the products we sell, or supply you with the necessary fittings for your staff to complete the installation.
